PROFESSIONAL SUMMARY

Final-year B.Tech student (Electronics & Computer Engineering, 2026) with proven experience in data analysis, SQL-based reporting, and Business Intelligence dashboards using Power BI. Completed a Data Analyst internship at Honda Cars India Ltd, where I automated reporting workflows and delivered actionable insights from 100+ trainee datasets. Proficient in Python, SQL, Power BI, Pandas, Flask, and REST APIs. Seeking a Data Analyst or Software Developer role to build scalable, data-driven solutions.

TECHNICAL SKILLS

Programming languages: Python, Java, JavaScript, C, C++
Web development: HTML, CSS, Flask, Django, REST APIs
Databases: MySQL, PostgreSQL
Business Intelligence & reporting: Power BI, Excel (Advanced), Dashboard Reporting
Data analysis & ML: Pandas, NumPy, scikit-learn, ETL, Data Visualisation, Machine Learning
Cloud & version control: Git, GitHub, AWS (basics), VS Code
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems

WORK EXPERIENCE

Oct 2025 – Jan 2026

Data Analyst Intern

Honda Cars India Ltd (Tapukara, Rajasthan)

- Analysed training and assessment data for 100+ employees using Python (Pandas) and Excel, identifying performance trends and learning gaps to support monthly review decisions.
- Cleaned and validated monthly datasets — handling missing values, duplicates, and inconsistencies — and applied ETL workflows to transform raw records into structured, analysis-ready formats.
- Built Power BI dashboards and automated Excel reporting templates, reducing manual reporting effort by ~30% and replacing ad-hoc spreadsheet reports for the Training & Manpower Development team.
- Collaborated with HR and training teams to standardise data collection workflows, improving reporting turnaround and ensuring consistency across monthly training records.

PROJECTS

IPL Data Analysis Web App - Team Leader | github.com/Riteshsharma28/ipl-data-analysis

- Built a Flask and Python web application performing ETL on raw IPL CSV data, delivering structured insights including player statistics, season trends, and match outcome predictions. Processed and cleaned 10+ seasons of IPL match data using Pandas; visualized results through interactive dashboards.
- Tech stack: Python, Flask, Pandas, scikit-learn, HTML/CSS.

Weather Forecast App - Team Leader | github.com/Riteshsharma28/weather-app

- Developed an Android application integrating the OpenWeatherMap REST API to deliver real-time, location-based forecasts for 200,000+ supported cities, with a responsive and user-friendly UI.

JourneyGram - Team Leader | github.com/Riteshsharma28/journeygram

- Designed and built a tourism-focused web platform selected for the Regional Round of DIPEX 2025, presented over a 3-day exhibition in Pune to an industry jury.

EDUCATION

B.Tech in Electronics & Computer Engineering

2022 – 2026 (Pursuing)

CSMSS Chh. Shahu College of Engineering, Chhatrapati Sambhaji Nagar | CGPA: 7.69/10

CERTIFICATIONS & ACHIEVEMENTS

NPTEL Certifications

- Problem Solving through C (2023)
- Programming in Java (2024)
- The Joy of Computing using Python (2024)

DIPEX 2025

- Selected for the Regional Round of DIPEX 2025 and presented the “JourneyGram” project over a 3-day exhibition in Pune.

Academic Excellence

- Awarded 2× Class Topper recognition with academic excellence medals.
